

IMMERSIVE ART

'It's not what you look at that matters, it's what you see.' Henry David Thoreau

We live in a world dominated by the visual. All around us are things to look at. However, we often do not notice the details. We can and do forget to use our innate curiosity. We look but we do not see. This week uses artwork and sound to reignite curiosity and engagement to generate ideas. It looks at how we all see things differently. The addition of sound develops perspectives that are diverse and fascinating.

Using innovative techniques with images and specially composed sounds the children build a world of ideas to use with a variety of written outcomes.

This week brings a whole new dimension to creative writing. Inspirational and engaging, it is particularly good for classes that may have a sense of reluctance to writing. It is best suited to Yr 5 and above.
