

After being away from school for such a long time, with routines disrupted, anxiety levels heightened and learning schedules erratic there is now, more than ever, a need for creativity and innovation.

In order to meet this challenge I have designed a series of sessions that will reignite curiosity, creativity, motivation and a genuine desire to learn. They focus on writing, self expression and the development of ideas. They are fun and will inspire the children to write, share, improvise and much more. They are a unique blend of the creative and the academic providing CPD through observation for all staff.

The idea is to build a bespoke timetable for classes across the school over 2-3 days. You can also book a one day INSET (see page 2). Both the Inset and the classroom sessions are run by Philip Davis.

See below for options and booking details.

CLASSROOM SESSIONS

3D MODELS

Create 3D models and use specially designed graphic organisers to write poetry and story and share through improvisation and music.

AWARENESS

Discover that ideas are all around us. Use the innovative awareness grid to develop the ideas you see and hear in the everyday to create wonderful poetry.

DICE WRITE

A unique method to create story and poetry using the power of dice, sounds and random connections.

WHAT YOU SEE...

Interpret unique soundscapes as abstract shapes and colours. Use these as inspiration for poetry and story.

IAMBS

Learn about iambs in the written word. Create iambic trimeters and turn these into song. Really popular with yr 5 and 6.

SOUNDS INSPIRATIONAL

Listen to amazing soundscapes and discover how they are a rich seam of ideas. Build these into unique poetry and story. Use your own ideas to create your own soundscapes. No musical experience necessary, just a curious mind!

BIRDSONG

Interact with the sound of birds and understand how to be inspired by them. Create poetic interpretations of these magical sounds.

As well as the classroom sessions you can book re-engage as a one day Inset. The course will give you a comprehensive understanding of Write Inspired and the thinking behind the sessions.

Many schools book an Inset day followed by a few days in the classroom to witness what they have discovered in the course . Please get in touch to discuss your needs.

INSET

- Build a more dynamic and engaging approach to the teaching of writing
- Understand how to use unique graphic organisers to organise and change simple ideas into more complex ones
- Use and understand the elements of sound that inspire
- Understand how to use more complex immersive soundscapes
- Create and use 3D models as learning tools
- Understand and develop associative and divergent thinking skills
- Build authenticity and agency
- Raise self-esteem and confidence
- Have a deeper understanding of the creative process itself and how it applies to all learning
- Move students away from the negative thinking often associated with writing
- Understand and use the 'It could be' mind
- Be able to find ideas in the everyday using observation and awareness
- Build effective improvisation and performance techniques to make language come alive
- And much more...

You will receive a comprehensive ebook of everything covered in the day as well as brilliant practical ideas that work in the classroom. You will feel inspired and energised to try the ideas out and have an increased knowledge and understanding of creative learning techniques that work.
