

The highly acclaimed Write Inspired course gives teaching staff hundreds of practical and innovative ideas to get children writing, and beyond this, to enjoy it. Writing can so often be seen as a chore, met with a collective sigh and lacking authenticity. This course opens up a world of brilliant ideas that are purposeful and have real meaning. Write Inspired builds confidence, self esteem and engagement, even in the most reluctant of writers.

By the end of the day teachers will be able to -

- Understand how to create a dynamic, vibrant learning environment using specially developed strategies.
- Inspire children to want to write and be engaged in the writing process itself.
- Develop the skills at the heart of idea generation: awareness, active listening, focus, concentration and resilience.
- Understand the 'It could be' mind.
- Understand our responses to sound - the physical, visual and emotional response, using original sound designs, adding a whole new dimension to your writing sessions.
- Use unique graphic organisers to develop ideas for story, poetry and other forms of writing.
- Understand and develop associative and divergent thinking skills.
- Help children deal with the frustration they may feel with the myriad of rules they have to learn in writing and in turn make it easier to master them.
- Move students away from the negative thinking associated with writing, one of the major barriers to learning.
- Develop successful spelling strategies going beyond 'look,say,cover,write,check'.
- Use 'sonic moulding' (creating 3D models from sonic inspiration) to invent unique and personal settings and characters.
- Create wonderfully individual performance spaces for children to share their work. Build self-esteem and confidence, the lack of which is one of the biggest barriers to writing.
- Build authentic writers who use their own ideas and develop their own unique style.
- Have a deeper understanding of the creative process itself which can be applied to all learning.

All delegates will receive a course ebook including a selection of Write Inspired resources to enable them to get started immediately.
