

# WRITE INSPIRED

BEYOND THE BLANK PAGE

## IN ACTION

Unique in-house CPD consisting of 2 or 3 days of classroom sessions to demonstrate Write Inspired in action. These are designed to be for single classes. KS 1 sessions can be up to an hour in length and KS 2 up to 2 hours. There is also a twilight inset of 2 hours for all staff

## OVERVIEW OF SESSIONS - IMMERSIVE EXPERIENCES THAT INSPIRE WRITING

Each one demonstrates elements of Write Inspired in action. During the day you can fit in 3 - 4 sessions. If you want more in-depth outcomes you can choose 2 or more for a single class. It is best not to try and cram in too many classes across the days as this can make everything too rushed. Some schools focus on a few year groups and some on KS 1 or KS 2. It helps if you can release staff to observe in other classes. Please call to discuss.

The sessions will cover a selection of the following ( depending on number allocated to each class )

- How to generate ideas using associative and divergent thinking skills
- How to develop these ideas using graphic organisers such as Idea Windows, Idea wheels and a variety of maps
- Creating a dynamic, vibrant writing environment to inspire and engage
- Using sound to inspire ideas : the physical, emotional and visual responses
- The 'It could be ...' mind and the power of 'or'
- Using three dimensional models to inspire ideas
- Creating individual performance spaces for children to share their work, building self esteem and confidence
- Discovering the rhythm of language and the power of improvisation
- Interpretation of sound with words and visuals to inspire poetry
- Using simple musical techniques to create and tell a story
- Using graphic organisers effectively, changing simple ideas into more complex ones
- Word acquisition techniques
- The wonder of subjective sonic vocabulary
- The natural world as an inspiration
